

Vibra-Quatic™

Pinpointer Metal Detector

2

Designed For Any Environment!

The Vibra-Quatic 2 is a state of the art handheld pinpointer metal detector that communicates with pulses of vibration and light, incorporates Pulse Induction (PI) technology and is waterproof to a depth of 100 feet.

The self-calibrating microprocessor controlled circuitry requires no adjustments. The unique sealed design allows detecting in any environment including grass, mud, dirt, sand, black sand, or even in fresh or salt water.

Features

- **Communicates with vibration & light** - When a target is located the Vibra-Quatic 2 signals with pulses of vibration and flashes of bright blue light.
- **Pulse Induction (PI)** - This technology allows hunting at the beach in salt water or in any type of soil, including black sand.
- **Detection depth stability** - New advanced circuitry maintains the unit's detection distance throughout the life of the battery.
- **True Target Direction** - The Vibra-Quatic 2 detects at the tip only, not along the shaft, enabling precision target pinpointing.
- **Target distancing** - The pulses of vibration and light will continue to increase in quantity as the probe tip gets closer to the target.
- **Automatic tuning** - The state of the art microprocessor controlled design requires no adjustments of any kind.
- **Tilt On/Off** - No push button switches. The Vibra-Quatic 2 uses a tilt on/off system that eliminates fragile external switches.
- **Waterproof** - Unique sealed design can be used in almost any environment including fresh or salt water to a depth of 100 feet. This makes the Vibra-Quatic 2 an ideal tool for divers.
- **Low battery indicator** - Built in low battery sensor alerts you when the battery is low and needs replacing.
- **Easy battery installation** - The standard nine-volt battery is quickly changed without tools. Simply rotate the rear knob and pull out the compression seal to access the battery compartment.
- **Solid construction** - The Vibra-Quatic's rugged sealed construction and stainless steel hardware are built to last.
- **Belt ring & wrist strap** - Includes a belt ring to attach to any common belt clip as well as a wrist strap for added security.

Vibra-Quatic 2 Specifications

- Detection Type** • Pulse Induction
- Search Mode** • All metal
- Overall Length** • 15 inches (38 cm)
- Tip Diameter** • 2 inches (5 cm)
- Weight** • 12 oz. (375 grams)
- Power** • Standard 9 volt battery
- Warranty** • 1 year
- Battery** • Included
- Wrist Strap** • Included

Specifications are subject to change without notice.
